Sartomer Company Coating Formulation Literature Now Available in Japanese

Free online library offers improvements, solutions to coating industry

EXTON, Pa., May 25, 2007 – Global specialty chemicals manufacturer Sartomer Company has announced that its technical literature is now available in Japanese. Volumes four, five and six of *Coating Concepts* are among the free, downloadable resources on the Sartomer Web site for formulators in the furniture, floor, protective, electronic and concrete coating industries.

Sartomer's *Coating Concepts* offers detailed study findings and performance data on a variety of industry topics. Some feature articles include "Novel Radiation-Curable Oligomers Combining Superior Wear Properties with Enhanced Chemical Resistance," "Problem-Solving Technical Literature for Formulators," and "Developing UV-Cure Coatings, Inks, and Adhesives That Are Hard, Yet Flexible."

For a free copy of available Sartomer literature in Japanese, call 800-SARTOMER or 610.363.4100, or visit <http://www.sartomer.com/techlitjapan.asp>. All volumes are also available in English.

Sartomer Company, part of Total's Chemicals branch, is a U.S.-based manufacturer of specialty chemicals. Headquartered in Exton, Pa., Sartomer provides a variety of specialty chemicals designed to enhance processing and performance characteristics in coatings, inks, elastomers, adhesives, sealants, composites and other demanding applications. The company's product offering includes more than 620 monomers and oligomers, photoinitiators, polybutadiene resins, styrene maleic anhydride resins, hydrocarbon resins and other specialty chemicals.
