

FOR IMMEDIATE RELEASE

Sartomer Experts to Present Five Sessions at RadTech Expo 2010

EXTON, Pa., March 11, 2010 –experts from Sartomer USA, LLC will give six original presentations on the use of monomers and oligomers at this year’s RadTech UV & EB Technical Expo and Conference (May 23 – 26, Baltimore Convention Center). Sartomer’s technical managers will address topics ranging from barrier performance in cured polymers to adhesion in direct-to-metal applications.

Topic	Presenter	Date
“Influences on Barrier Performance of UV/EB Cured Polymers”	Josh Oliver, Manager of UV Specialty Applications	Tuesday, May 25
“Evaluation of New Oligomers for UV/EB Lithographic Inks”	James Goodrich, Manager of UV/EB Technology	Tuesday, May 25
“Acrylated Products Designed for Formability and Adhesion Enhancement in Direct to Metal Applications”	William R. Schaeffer, Manager of Industrial & Specialty Coatings, UV/EB Technology	Tuesday, May 25
“Design and Performance of Radiation Curable Acrylates with High Renewable Carbon Content”	Jeffrey Klang, Manager of Monomer Development	Wednesday, May 26
“UV/EB Technology for What's Next”	James Goodrich, Manager of UV/EB Technology	Time TBD

James Goodrich will also take part in a presentation on durability as part of the end-user conference on printing & packaging, which takes place Monday, May 24.

In addition, Sartomer will feature 12 oligomers and monomers at its booth #309 throughout the four-day show.

Abstracts for the papers are available on Sartomer's Web site at www.sartomer.com/events.asp.

About Radtech

RadTech UV/EB 2010 is the world's largest UV & EB event dedicated to fostering educational, technical, and scientific advancement in the use of ultraviolet (UV) and electron beam (EB) curable products. It is produced by [RadTech International North America](http://www.radtech.org), the nonprofit organization dedicated to the technical, educational and market advancement of Ultraviolet (UV) and Electron Beam (EB) Technology.

About Sartomer

Globally based in Exton, Pa., Sartomer USA, LLC is part of Total's chemical branch. Sartomer is the premier global supplier of specialty chemical additives for ultraviolet and electron beam (UV/EB), peroxide, and two-part epoxy/amine cure systems. For more than 50 years, Sartomer has pioneered the development of these advanced technologies, introducing hundreds of products that enhance performance in coatings, inks, adhesives, composites, and other demanding applications.
